Why UBC?

- Checked and guaranteed quality
- Traceability and guarantee from the origin of premium raw material
- Control and uniformity of production and heat treatment process
- Internal geometries and high performance technical features
- Advanced production technique constantly inspected and checked
- Reasonable quality / price ratio
- Pre- & After- Technical support

Discover **UBC**[®]

UBC Precision Bearing Co., Ltd. (UBC) is a 100% subsidiary company of a Japanese public company - Nippon Thompson Co., Ltd. (products branded as IKO) – a world leading company established in 1950 specialized in needle roller bearings and linear motion products.

UBC is a manufacturer of both standard ball and roller bearings for OEMs and aftermarket as well as special designed bearings for applications with harsh working conditions, covering a full range of bearings.

With good and reliable quality, positioned to be a premium economy brand in the market, UBC has provided perfect solutions to end users who has cost down requirement but without too much compromise on quality.

Our main serviced industry sectors includes:

1. Off-highway vehicles: construction machineries, agriculture machineries, forklift, heavy-duty trucks;
2. Power transmission: gearbox and speed reducer, axle, air compressor and pump;
3. High-precision applications: robotics, machine tools, medical equipment;
4. Heavy industry applications: pulp & paper, steel, mining, power generation, sugar mills, etc.

Our bearings, your solution.

UBC Brand Positioning

Self-aligning ball bearings

Thrust ball bearings

Bearing units & bearing inserts

Thrust spherical roller bearings

Needle roller bearings

Bearing accessories

UBC Product Range

Cylindrical roller bearings

Tapered roller bearings
(metric & inch design)

Spherical roller bearings

Double-row full complement
cylindrical roller bearings

Deep groove ball bearings

High precision angular
contact ball bearings

UBC Engineered Products For Heavy Industry Application

Four-row tapered roller bearing

Four-row cylindrical roller bearing

Gear unit
